

Increase Student Engagement

Cleverstore

It's easy to hold students' attention when there's something new on the screen. We've hand-picked apps from educational app developers that support Common Core State Standards in the US and the National Curriculum in the UK.

Apps for everyone

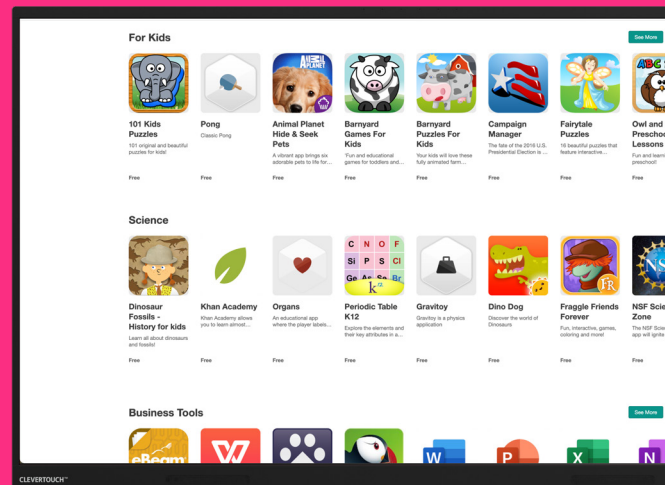

With apps for all ages and in most subjects, there are loads to choose from to help support your lessons. From Coding to Math, Literacy, and Science, as well as games and stories, Cleverstore has everything you could need.

Dual Language

Not only are most of our apps available in a variety of languages, but some also support dual language, allowing you to teach languages such as French, Spanish, and German as you go along.

A store you can trust

Our App Team checks every app that's submitted to the store so there is no inappropriate content. We want to enable teachers to download apps as lesson resources - so all app are suitable for the classroom.

What's new with Cleverstore 3.0?

- It's browser-based, set up your account at cleverstore.com – now you can manage your account at anytime, from anywhere.
- You need to setup an organisation when creating an account. This allows you to invite people to your organisation, and assign roles to manage their apps.
- You now have the ability to invite users to your organisation.
- You can now assign applications to users. Applications that are assigned to users show up under “My Apps” on both the web marketplace, and android Cleverstore app.
- You now have the ability to rate apps and see what is popular.
- You are now notified when an app needs an update.
- Improved app search functionality.
